The book cover features a complex, layered design. At the top, the title 'FROM MODELS TO DRAWINGS' is printed in a bold, black, sans-serif font. Below the title, the editors' names 'Edited by Marco Frascari, Jonathan Hale and Bradley Starkey' are listed in a smaller, black, sans-serif font. The background is a light brown or tan color, overlaid with a dense network of white lines. These lines include solid, dashed, and dotted paths, some of which form recognizable architectural floor plans and structural diagrams. Interspersed among these lines are numerous small, white, cylindrical objects that resemble architectural models or components. The overall composition is intricate and suggests a focus on architectural design and its representation through models and drawings.
