EXCHANGE STUDENTS TO THE FACULTY OF ARCHITECTURE AND FINE ART AT NTNU

*Application deadline: 1 May / 1 October (4th or 5th year students)

We strongly recommend that students register online and send their applications some time before the deadline. The students should not make a selection of courses at this point.

*On-line application:
http://www.ntnu.edu/studies/exchange_students/how_to_apply. The student should fill in all personal information asked for. He / she should be especially careful about registering his / her name the way it appears in the passport / national ID and also take care that he /she registers his / her complete postal address. The student should upload all documents to the online application before sending them by post.

*As soon as we get the list of the combined project work and theoretical subject from the Faculty of Architecture and Fine Art we will send it to the student by email. The student has to indicate his / her priorities, 3 alternatives, and return the form by e-mail to studadm@ab.ntnu.no with cc to kari.enge@ntnu.no or Sigrid.Hauge@ntnu.no before the deadline indicated in the form. The combined project work and theoretical subject give 22,5 ECTS credits.

*A list of the single theoretical and disciplinary subjects will be sent to the students either at the same time as the list of the combined project work and theoretical subject or a few days later. Each of these courses gives 7,5 ECTS credits.

*A full-time student is supposed to take 30 ECTS-credits per semester.

Important:
The student should add a certified copy of his /her passport / national ID to the Application (Certified copy: the copy has to have a stamp and signature confirming that the copy is a true copy of the original. The copy may be certified by your university / international office or by a notary public.)

IMPORTANT:
For students who are planning to take courses at the Faculty of Architecture it is important that they have arrived when classes begin. Many architecture courses are based on a big and complex project the students are working on during the short time of one semester. The task they have to solve is very demanding and needs full commitment. It is absolutely mandatory that the students are able to be with the group from the start of the semester to the end of the semester, and that they are free to spend the necessary amount of time on the main task. Coming late may cause a lot of frictions for the other students as well as the teachers. The faculty can only accept students who are able to spend the necessary time in the courses and are willing to focus for these months on the courses.
