| General Information about the University (location, number of students, faculties) | Université de technologie de Troyes  
UTT’s core missions are to conduct research, deliver education & training and facilitate technology transfer. UTT is a French institution of higher education established in 1994. It is today one of the largest engineering schools in France. Over 2,500 students are registered at the University, enrolled on undergraduate, postgraduate and doctoral study programs. In the renowned yearly ranking of the French magazine “L’Etudiant”, UTT takes in 2011 an enviable 6th position among 65 French engineering schools.  
**Customized study programs**  
The standard five-year engineering degree, which is accredited by France’s independent engineering degree accreditation body, CTI, can be tailored to each student’s individual career objectives as from the first year. UTT offers five engineering degrees, a master’s program with the choice of nine specializations, a PhD research program in five specialist areas, as well as work-integrated learning (WIL) modules which combine academic study with paid workplace learning (leading to either a vocational degree, an engineering degree or a master's).
