big enough to play on the world stage.

Do you go big or small…..? Yes!
We believe in both. That’s why we’re a $35 billion company with the mindset of a start-up. So big idea, small idea, or somewhere in between, here's your chance to share it with us.

Internship in Cheese & Dairy – New Product Development (m/f)
ID 1510133
Munich, Germany

Your challenges:
- Support day to day project management activities, pilot plant trial organization, chemistry and finish product analysis and documentation
- Run pilot plant equipment, submit samples for analysis, perform measurements and data analysis
- Contribute to the development of new products and production processes for the cream cheese category
- Gain hands-on experience in our state of the art pilot plants and conduct your very own shelf life studies
- Work together with experienced technical experts and learn about innovative food processing technologies directly from top developers in cheese & dairy

For this role you will need to have:
- Student in Food Technology/Science or Chemical Engineering (min. in 5th semester at university)
- Experience in using food processing equipment in plant or pilot plant
- Dedicated process engineering knowledge
- Team- and solution-oriented, innovative, enthusiastic about working with an international team
- Able to work with a high degree of autonomy
- Familiar with statistical data analysis
- Fluent in spoken and written English, other European languages are an advantage

When you look at the shelves of your local newsagent or supermarket, you’ll probably spot quite a few of our delicious brands. Oreo, Milka, Philadelphia, Miracel Whip, Halls … they’re all created by us. Behind these great products, our HR team is dedicated to finding and keeping the best talent around and the most important ingredient in keeping our spirit alive.

Join us and create delicious moments of joy!
Starting date: February 2016 (6 month internship - €1.400/month gross)
