LIST OF PUBLICATIONS (1982 - )
Original articles in international journals with scientific referee procedure

89. Heningsson Å, Nyman M, Björck I (2002), Short-chain fatty acid content in the hindgut of rats fed various composite foods and commercial dietary fibre fractions from similar sources, *J Sci Food Agric* 82, 385-393.

124. Östman E, Granfeldt Y, Björck I (2007) Does carbohydrate meals of similar glycaemic load produce similar glycaemic excursions irrespectively of glycaemic index? (manuscript)

127. Berggren A, Björck, 1, Nyman, M (2007), Short-chain fatty acid content in the rat hind-gut using Acarbose to increase starch fermentation (manuscript).

vitro studies using isolated Langerhans islets from mice exposed to human postprandial plasma (manuscript)

130. Nilsson M, Björck I (2007) Effect of the glycaemic and insulinaemic indices of whey and other cereal based breakfast meals on glucose tolerance at a subsequent lunch meal in healthy subjects (manuscript)
