Tyréns in the Virtual Reality Lab

Tyréns – one of Sweden’s leading consulting companies in the urban development sector – kept a seminar in the Virtual Reality Lab February 12. The seminar – arranged by Stefan Aguayo from Tyréns - focused on visualizing building processes and underground objects. Joakim Eriksson (Virtual Reality Lab) and Martin Hörestrand, Pär Hagberg and Pål Hansson (Tyréns) had prepared a virtual environment that was used as platform for discussions.

The collaboration between Tyréns and the Virtual Reality Lab is a very good example of how both industry and academia can profit from working together, sharing ideas and experiences.

Visualization meeting

Welcome to an exciting meeting about visualization in Lund! We meet April 29 at Ingvar Kamprad Design Centre in Lund to discuss how we can build a network together for visualization in southern Sweden. You can apply by sending an email to mattias.wallergard@design.lth.se. Welcome!

Master thesis presentation

Silvia Ramos will present her master thesis “Improving the experience of exploring a virtual museum-Lund after 1658”. The presentation will take place Friday April 3, 10.15 in the Virtual Reality Lab at Ingvar Kamprad Design Centre. Welcome!

That’s all for this month! Do you have questions, ideas or just want to chat a bit about visualization technology? Don’t hesitate to contact us!
