

Gender equality, equal opportunities and diversity

Diversity, gender equality and equal opportunities among staff and students contribute to a good work environment and high quality achievements within the organisation. At LTH we want to offer all employees equal career and personal development opportunities. This is one of our top priorities.

As an employer, LTH strives to ensure that ALL staff have equal rights with regard to employment and working conditions, equal rights and opportunities when it comes to salary-setting, and equal opportunities with regard to influence, responsibility, authority and professional development.

Lund University and LTH safeguard the equal value of every individual. We do not under any circumstances tolerate victimisation. Any such behaviour is treated extremely seriously and must be dealt with immediately.

Our dedicated and enthusiastic staff members are our most important resource.

We want LTH to be a welcoming and attractive workplace, providing a developing and stimulating work environment for students and staff.

A good work environment is the result of both psychosocial and physical factors. The environment must be safe and secure, and be characterised by job satisfaction and participation. Working conditions should be adapted to suit the individual needs of our employees.
