

TOGETHERNESS

- a cooperation over department and group boundaries

The JäL**M-HUSET** group promotes information and discussion on the topics of diversity, equality and gender.

Our goal is to provide a platform for discussions and possible changes on the above topics. We do this by a series of seminars where the invited presenters will illustrate different aspects of diversity, equality and gender issues.

All employees in the M-building are most welcome!

We hereby invite you to a lunch seminar with the title

Antimuslimsk rasism (islamofobi)

Mattias Gardell, Uppsala University

**March 15-2018, 11 - 13,
Seminar room Automatic Control M:2112B**

All attendees are served a light lunch to be enjoyed during the seminar.

Want to be part of this important and unifying work?
